The highest Jura's rocks!

5 days of great orienteering

When organizing Wawel Cup, we have in mind the biggest orienteering run event in Poland, which attend, as in past years, more than 1000 participants each year. The competition that is renowned in Poland and recommended by foreign competitors. The run with diversified terrains, good maps, interesting courses and exquisite atmosphere.

Having listened to your feedback from previous edition, we would like to pay attention to every detail. We want to ensure that during Wawel Cup each runner feels superb!

After couple of years, Wawel Cup is back in rocky terrains. Wawel Cup 37 comprises of the biggest rocks in Jura, the possibility of seeing the medieval castles and beautiful surrounding nature! And foremost challenging terrains and orienteering... on the highest level. Together we will make it a real worldwide orienteering running feast!

08.07.2018	V stage	– Mirów-Bobolice – long distance (shortened) „History in the background!”

I stage –Kroczyckie Rocks – long distance, mass start

When organizing Wawel Cup, we are looking for a new solutions. One of the novelties during Wawel Cup 37. will be mass start run with forks for WM14-55 category. Wawel Cup will be opened with long distance, the rest will the flow ;)

Our competitors will be able to find in the terrain what they like the most – rocks, stones, monadnocks, cracks and caves. There will be a lot going on!

II stage – Rzędkowickie Rocks – long distance (shortened)

On the second day we will move beyond second part of the road. The main attraction of this stage will be the Rzędkowickie Rocks, which are calcareous rocks located in the western part of the map. In terms of sport: the competitors will face shortened long distance, our main mapper and course planner Włodzimierz Dyzio won't let them get bored!

The terrain comprises of big number of calcareous rocks and stones. Additionally the southern part of map will be marked by numerous ravines, the runnability is partially limited. It sounds like a tough running!

III stage – Podlesice – middle distance

During third stage our runners will be able to develop higher speed. The route will be led through flat terrain, dominated by subtle contour details. There will be no shortage of rocks and stones!

In the contrast, in the afternoon there will be a real surprise waiting for you! More information soon, but let us reveal a bit of this secret by sharing the uploaded part of the map.

IV stage – Between the Castles – middle distance (1:5000)

The fourth stage will add the flavour to Wawel Cup 37. The new sprint map by Jacek Morawski and Wojtek Dwojak, plenty of control points among two castles, beautiful scenery of Grzęda Mirowsko-Bobolicka. A lot of attractions for one day!

The terrain won't lack of rocks. This time the competition will be held in the half-open terrain, runability will be mainly heavily limited.

mappers – Jacek Morawski, Wojciech Dwojak
course planners – Marcin Biederman

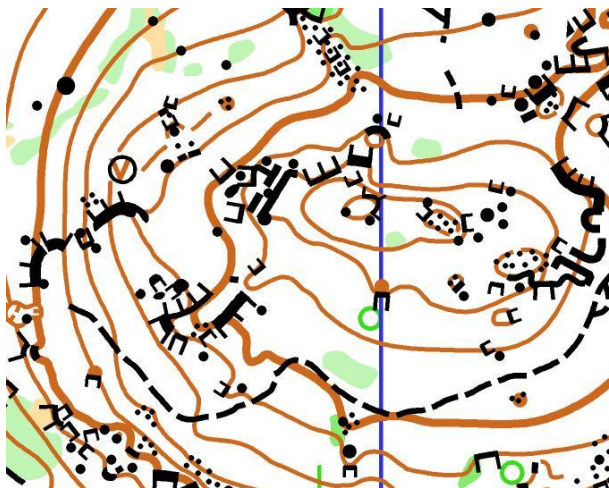

V stage– Mirów-Bobolice – long distance (shortened) „History in the background!”

And the dessert is as usual a handicap start. The run will start next to the castle in Mirów, the finish line will be located in Bobolice. Two castles from XIV century will accompany us throughout this run with the history in the background. The spectator control point will be there along with GPS, radio control and exciting comments from our speaker. At the end, we are planning a technically demanding stage and real sport rivalry.

This time the terrain will be dominated by the well runnable forest with rocks and stones. The last part of the course, that will be led along Grzęda Mirowsko-Bobolicka, maybe the decisive one. We will see!
